

Join **Martin Campos** and **Vilidian** (IG@vilidian_artmodel) in Mallorca Spain as we paint the landscape and figure in Cala San Vicenç, the very village where Joaquin Sorolla painted many years ago. We have found an incredible villa with 6 bedrooms in this charming and scenic seaside village. The changing light, the stunning mountains and sea have drawn artists to paint here for ages.

Our residence is at the top of the village affording great views of the mountains. It's an easy walk to the beach, to restaurants in town, and close to the picturesque city of Pollençà.

Vilidian will join us for 4 of our 8 days here, and there are endless options for scenic spots to paint or draw this incredible model in the landscape and at the villa.

Martin is a highly regarded artist, and amazing instructor. With lots of personal attention, discussions and encouragement, the time with Martin and other like-minded artists will be an intense experience to never forget.

Workshop price: \$3500 per person double occupancy. This includes a full healthy breakfast daily and one more complete meal (either lunch or dinner daily, according to the painting schedule). The meals are delicious, and dining together gives us time for interesting discussion and conversation. Roundtrip group transfers from and to Palma airport are included (about 45 min ride). All instruction with Martin Campos and Vilidian as model also are included. Contact bethvosoba@gmail.com to reserve your spot.
